Other pharmacy providers are focused on getting your business; **we're focused on keeping it.**

You value our hospice pharmacy expertise; **we value your time.**

What Can **One** Do For You?

We're unique in that we're the only national hospice pharmacy that truly offers the full continuum of pharmacy services. Our hospice partners have the ability to select any combination of pharmacy services without ever having to change providers.

Our services are:

Our pharmacy benefit management services

As a PBM we adjudicate claims, manage custom formularies and maintain a comprehensive network of pharmacies for our partners to choose from.

Our mail order services

We own and operate our own regional hospice-dedicated pharmacies that can ship medications next day to hospice patients nationally, regardless of their location.

Our local delivery services

Leveraging our regional hospice-dedicated pharmacies, hospices and their patients benefit greatly from unparalleled door-to-door delivery service that no other hospice pharmacy can provide.

Our clinical consulting, technology solutions and regulatory tools

We provide our hospice partners with 24-hour access to state-of-the-art tools, information and resources to successfully navigate the ever-changing and demanding regulatory and compliance environment.

"OnePoint has helped me drive my costs lower than ever before. Their staff acts as an additional set of checks and balances for our hospice. They have helped us succeed in controlling costs and achieving our pharmacy budget."

*Darren Bertram,
CEO of Infinity Hospice Care*

Our pharmacies use our exclusive 4-step RxAccuTrack® system for quality control because **we know you're counting on us.**
